ABOUT US

Our story began in New Delhi, the capital of India, in 1959 by our grandfather & father. He started the establishment with a solo product when he managed to develop Isomars technoart technical drawing pen & lettering stencils. Then began a fascinating journey, a humble attempt to develop fresh ideas and new products. This idea of constant evolution was instilled in the company by him and now we are a bunch of innovative individuals helping the creatives with a satisfying selection of stationery. At Isomars, we are constantly evolving and adding new products designed for artists. We appreciate your patronage, support and relationships so much so that we are trying to provide drawing aids for students, art supplies for everyone from beginners to enthusiasts, honouring our customers' expectations of beauty, quality and value.

Isomars takes pride in providing the finest drafting tools, art materials and thanks to the enthusiasm shown by our customers' community that we are still growing and evolving. We are developing fresh ideas and new products so that we can provide you with the right tool or material for whatever project you might be needing for.

Every like, every appreciation we receive seems like a feather in our cap and needless to say that we are so elated to see the growing community online of amazing artists that we are currently supplying our products to various organizations and stores based in around 79 countries of the world including United States, South America, Europe, UK, UAE, Asian countries, Africa, Australia etc.

Our main product range includes - Drafting Tools and Art & Craft supplies.

We also have the facility to make the CUSTOMIZED items for the customers under their own brand name, packaging etc.

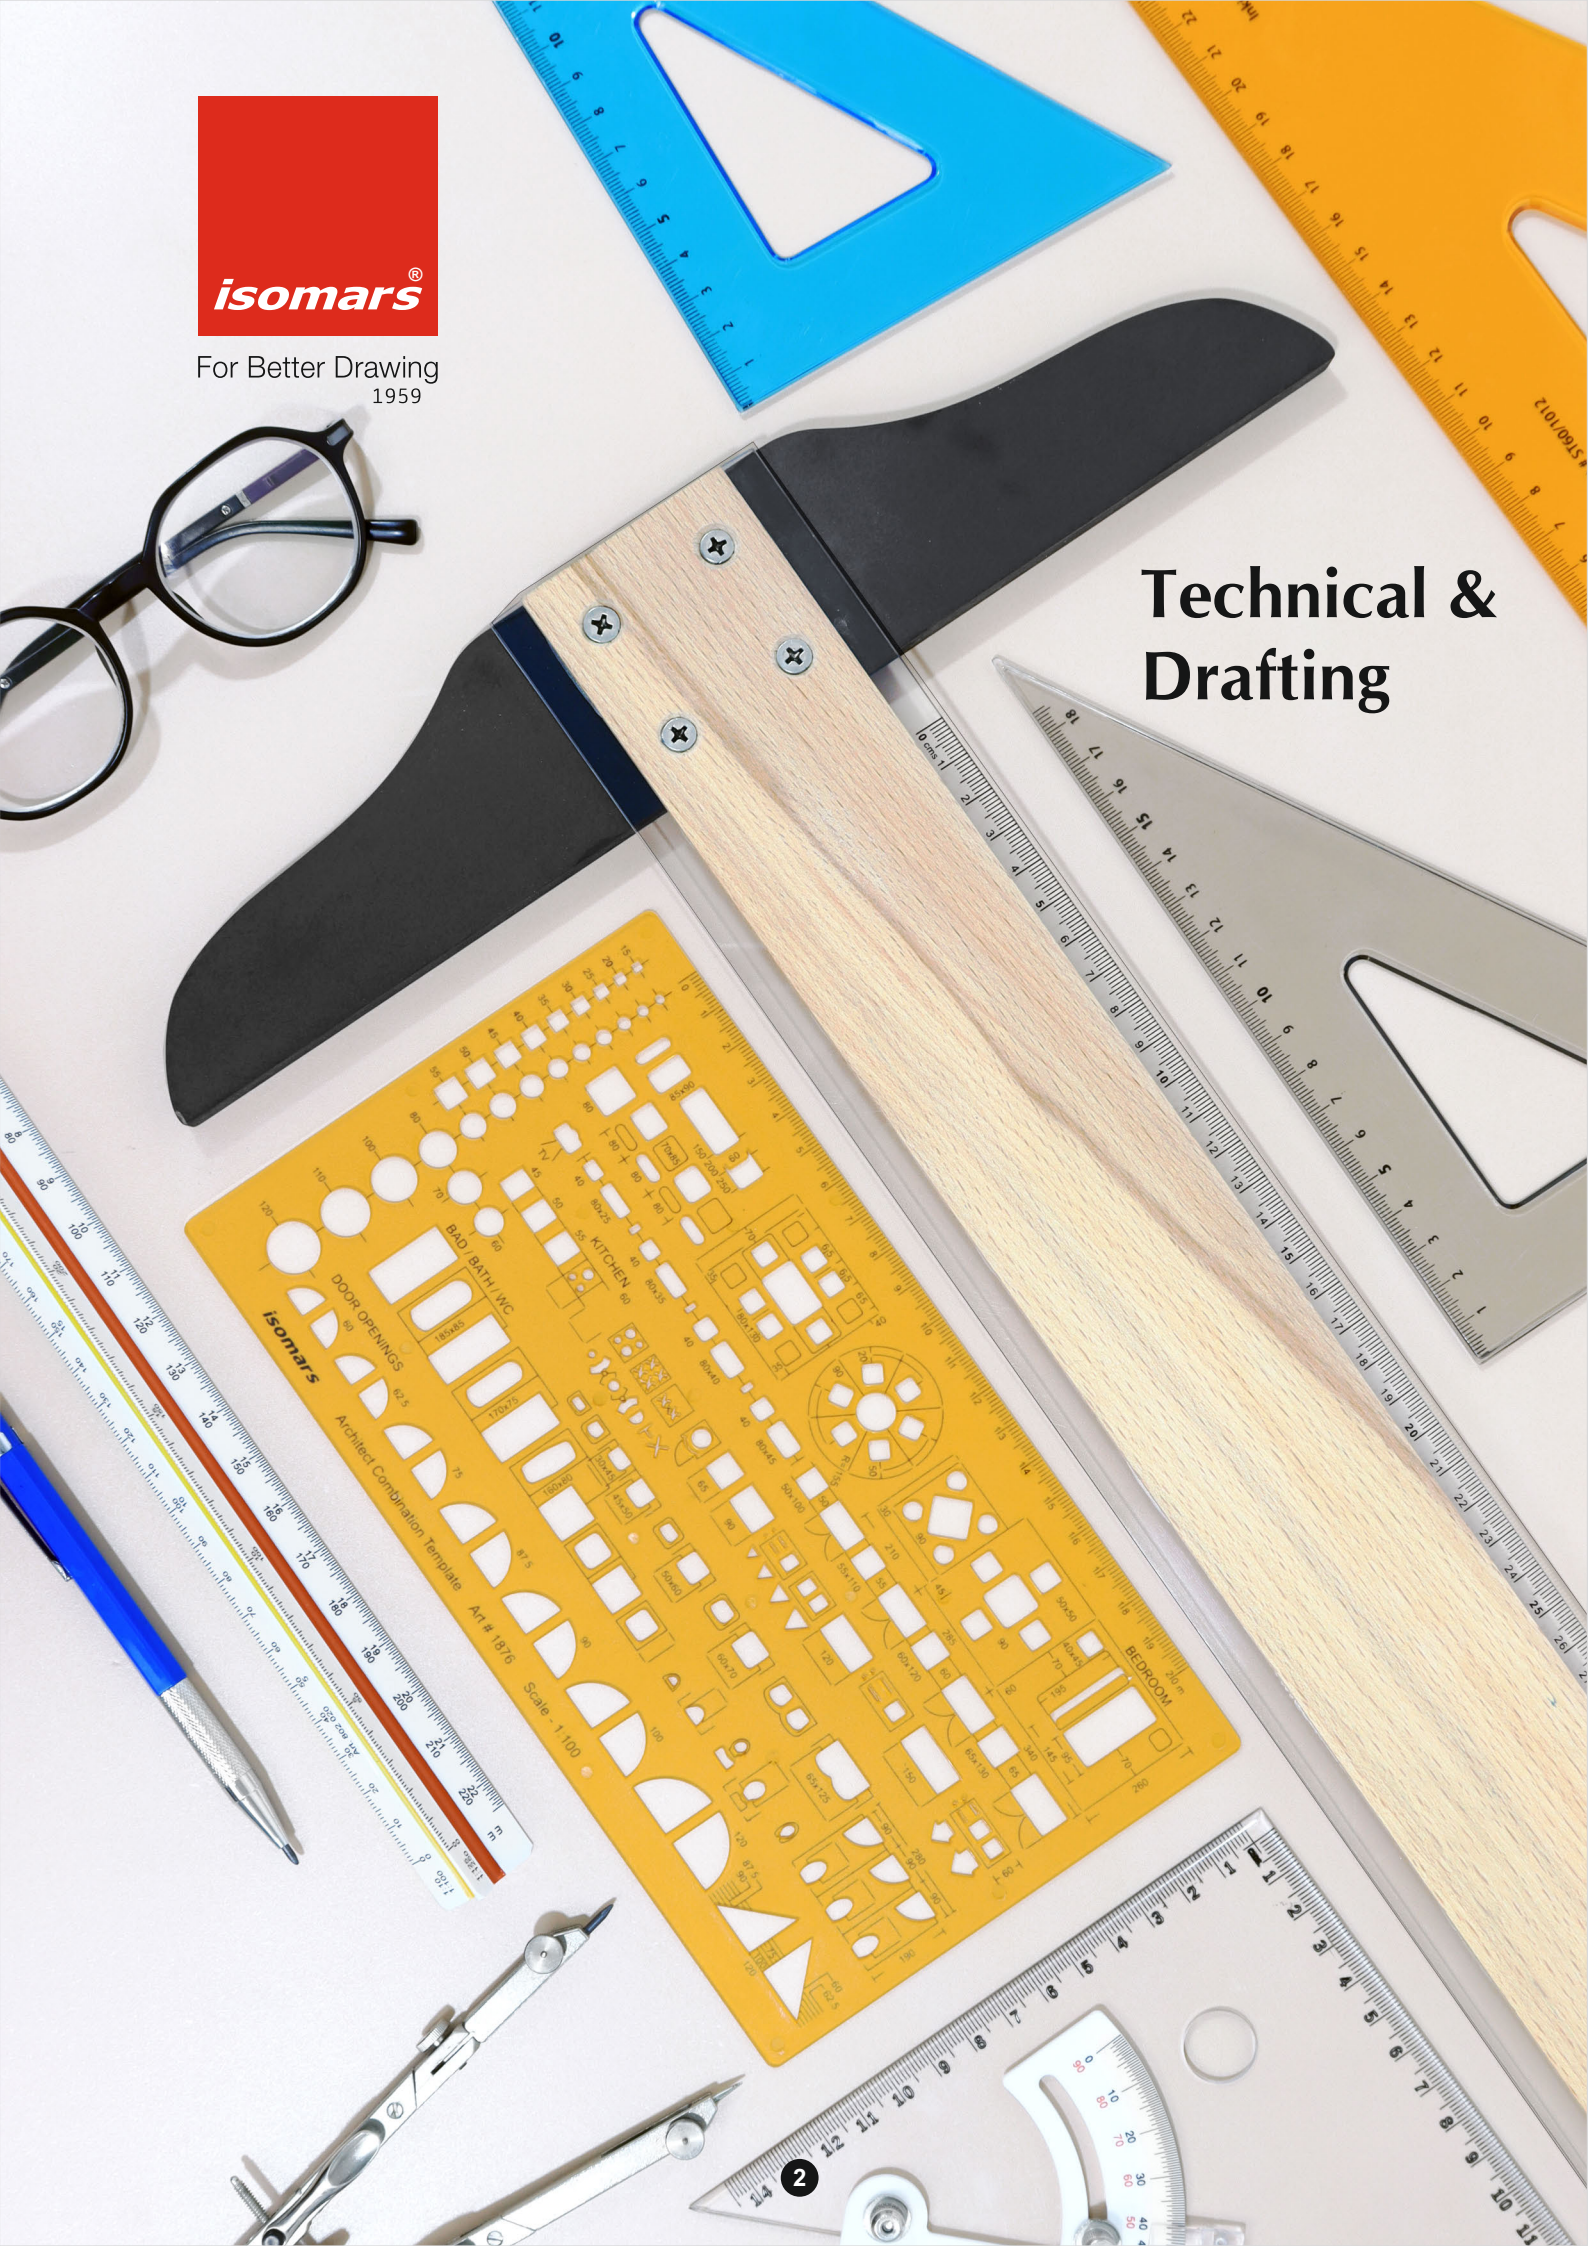

Should you wish to contact us for any query / business negotiations, our contact details are provided at the back cover of this page. For more information and for viewing our newly added items please visit us at :

TECHNICAL & DRAFTING

Unlike traditional set squares with fixed angles, adjustable set squares offer more flexibility and precision in various drafting tasks.

This flexibility makes adjustable set squares suitable for a wider range of drafting projects, including technical drawing, engineering, and architecture.

Set Square Scholar

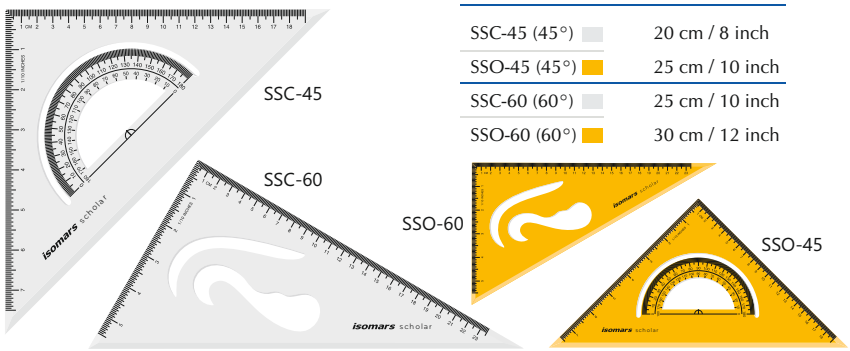

Protractor / Curve Cut Inside

INDIVIDUAL PACKING

45° & 60°

Scholar set squares have a set of fixed angles, primarily 30, 45, and 60 degrees. These angles are commonly used in geometry and drafting.

The set squares are available in both individual and set configurations in various sizes. The crystal clear and transparent orange material helps easy positioning while using it.

T-Square - Wood

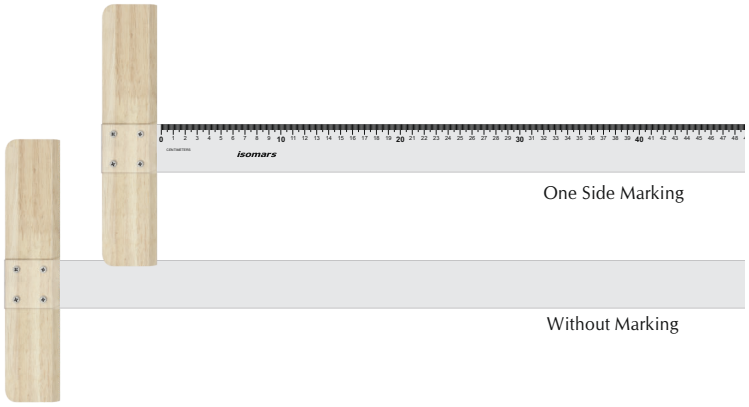

T-squares are essential tools for drafting and technical drawing, used to draw straight lines parallel to the edge of a drawing board.

The wooden body gives the scale classic look and provides more strength.

MARINE & NAUTICAL

Nautical Parallel Bar is a specialized marine navigation drafting tool, consisting of two parallel rulers connected by a linkage mechanism, allowing them to move together while maintaining a fixed distance apart.

This unique design makes it ideal for drawing parallel lines and performing various navigational calculations such as determining bearings, distances and course corrections.

Gridding Scale

A Grid Ruler is a specialized tool for tailoring that features a grid pattern of squares or rectangles.

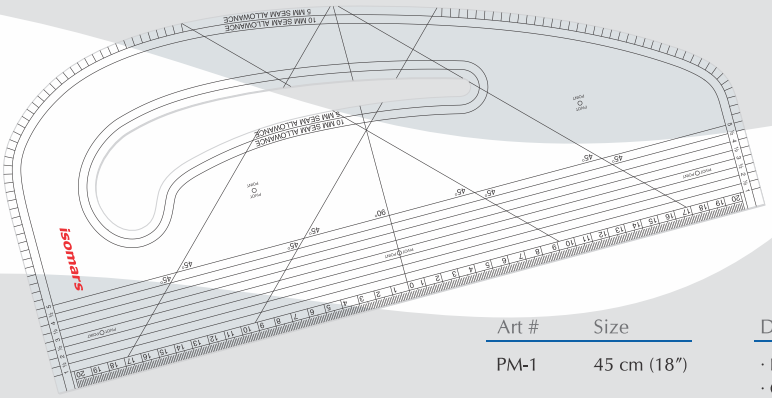

It's used to accurately measure and draw straight lines, angles and patterns.

Art #	Size	Description
G-45	450 x 50 x 3 mm (45 cm / 18")	· Plastic · Clear Tint

Pattern Curve

Tailors and dressmakers use this tool to accurately measure and draft patterns for different body types and styles.

It saves time and effort compared to drawing patterns freehand. The ruler has markings for specific measurements, such as seam allowances & pivot-point.

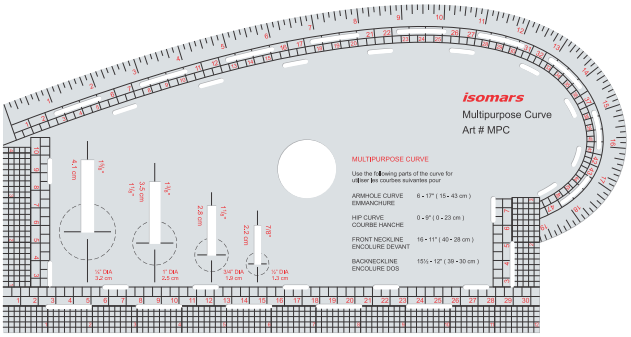

Art #	Size	Description
PM-1	45 cm (18″)	· Plastic · Clear Tint

Multipurpose Curve

A Multipurpose Curve is a versatile tool used in tailoring and pattern making.

Can be used as an Armhole Curve, Hip Curve, Front Neckline and Back Neckline Ruler.

Cartridge Paper Pads: This refers to a paper pad designed for use with cartridge pens (pens that use ink cartridges). This paper is generally a thick, textured paper preferred by artists for ink drawings, sketches, and sometimes calligraphy. It's durable and can handle fine ink lines without bleeding, making it ideal for detailed drawing.

ESTUDIO LONG HANDLE ART BRUSH SERIES

Estudio paint brush series has long handle brushes, made with silver ferrule, golden bristles, and blue wooden handles. Long handle paint brushes are designed to provide artists with greater control and reach, especially when working on larger canvases or murals. The extended handle allows artists to work on larger canvases without having to lean in or move around as much.
